

EarthLite's Guiding Principles are more than words – they are core values that are integrated into every product we make. Our Plant-A-Tree initiative is an extension of EarthLite's ongoing commitment to be earth friendly. Planting one tree for EVERY massage and spa table we sell is one way we will show our respect for nature and maintain EarthLite's environmental integrity.

Plant-A-Tree programs eliminate hundreds of thousands of pounds of carbon dioxide (CO₂) from the atmosphere each year, but the benefits of EarthLite's Plant-A-Tree programs extend beyond offsetting CO₂ emissions. Our partner, American Forests®, has planted 20,437 trees to help restore the San Bernardino Mountains recently damaged in the California wildfires. Sustainable Harvest International addresses the tropical deforestation crisis in Central America by providing farmers with sustainable alternatives to slash-and-burn agriculture. And, Trees for the Future, has helped thousands of communities in Central America, Africa, and Asia improve their livelihoods and their environment by planting nearly 50 million trees.

Plant-A-Tree is one of EarthLite's many established programs and practices to support the environment and promote social consciousness. Our earth friendly materials and processes include:

- 100% PU Natursoft® Vinyls – PVC Free
- Eco-Friendly CFC-Free cushioning systems
- Water-based lacquers & glues
- CNC optimized wood milling minimizes scrap
- Use of managed forest hardwoods in our products
- Intensive wood and sawdust recycling
- Energy efficient factory lighting
- Biodegradable cardboard packaging
- Use of recycled paper with eco-friendly inks in our offices
- Extensive inner office recycling programs
- Sponsorship of the EarthLite Response Team™ (ERT) –

trained volunteer massage therapists committed to providing relief in the aftermath of natural disasters

EarthLite is proud of its partnerships with the American Forests, Trees for the Future and Sustainable Harvest International. We encourage you to click on the attached links to participate and to learn more.
