

BEAUTIFULLY ENGINEERED FROM THE INSIDE OUT.

One glance at our Rinato Spa and you'll instantly notice its sleek, clean, contemporary styling. Take a seat in the plush, richly upholstered chair, and electronically adjust it precisely to your comfort level. Activate the remote control to start the relaxing chair massage system and heated seat cushion. Then slip your feet into the swirling, revitalizing water massage for a pause that relaxes, refreshes and rejuvenates. In addition to Rinato's stylish looks and ultra-comfort features, this spa is also the ultimate technician's tool. Its unique design gives the technician fingertip access to every spa function, and provides ergonomically correct positioning up close for all spa treatments.

Introducing a time-saving breakthrough in pipe-free technology.

You'll enjoy the peace of mind knowing your Rinato Spa features the latest advancement in sanitation control with our new **CleanTouch™ Pipe-Free** technology - designed to dramatically cut the time it takes to sanitize your spa between clients. With its newly re-designed basin and re-engineered water massage technology, the Rinato is now the fastest and easiest pipe free system to clean and sanitize on the market.

Winner - 2006 and 2007
NAI's Magazine Readers
Choice Award for Best
Pedicure Equipment

Rinato Spa shown in Black base, Cashmere cushion, and Pearl basin.

Solid cast-aluminum leg supports independently adjust for pedicure and massage treatments, and allow technician to work freely with both hands.

Space-saving armrests pivot straight back for easy entry. And Rinato's solid steel frame provides added support for clients up to 350 lbs.

An electronic remote unit allows fingertip control of the seat's heat and massage settings, as well as forward/back and recline adjustments.

A fully adjustable neck pillow provides added support for clients of all heights.

Automated seat movement, along with roller and vibration massage with a heated seat bottom, for the ultimate in versatility and client comfort.

Space-saving armrests open to expose beverage holders and can double as a working surface for manicure services.

The Clean Touch system uses only 4.5 gallons of water for each pedicure service, which can save money for your salon, and help the environment.

The optional Power Drain Pump provides quick automated draining with the push of a button.

Center console provides easy access to every spa function, including the adjustable leg supports, faucet, power button, drain knob, and sprayer.

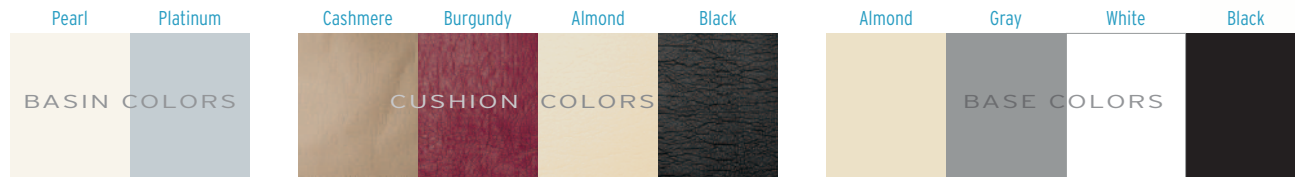

Spa Sanitation Made Simple. And Fast!

Our new Clean Touch Pipe-Free technology provides clients with a revitalizing water massage and makes clean-ups and sanitizing easy for the technician! Simply twist off the Clean Touch System, spray and wipe clean. It's faster and easier to clean than ever. And our new Clean Touch Basin requires less hot water than other spas, making it more environmentally friendly to the planet and your energy bill. (See page 14 for more information.)

A simple twist of the wrist removes the Clean Touch Cover and Impeller for quick, thorough basin sanitizing between client visits.

Seat back encompasses built-in massage rollers and vibration motors for the ultimate in client comfort. Industrial brushless roller massage motor and optic sensors for enhanced reliability and product life.

Rinato Spa Color Palette The Rinato pedicure spa comes in a palette of over 30+ color combinations, allowing you to customize your chair to your salon's décor and environment. Check our website for the latest colors available.

Streamlined design allows technician to sit in a forward position with her legs on either side of the basin, providing a more comfortable work environment.
